

*Let us make your wood
dream come true*

STAIRCASE SPECIALISTS

For over 40 years, Styl'step has designed, manufactured, and installed tailor-made staircases, standard and high-end, classical and contemporary, mixing wood with lighting and with all types of materials such as glass, steel, stainless steel.

Our know-how and our leading-edge technology combined with high quality wood species have built our reputation.

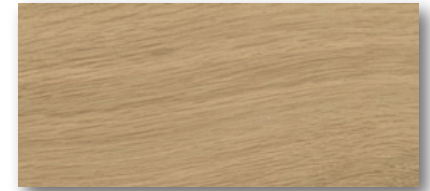

Our daily priority is to guarantee high quality products and services.

We make staircases for indoor and outdoor use, for residential homes, multi-family and commercial buildings, and for public places. For us, each client is unique, which means that each of our projects must be unique, too.

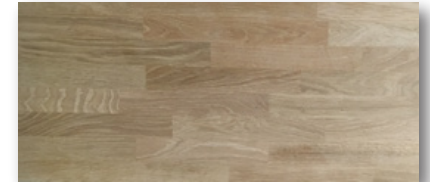

100% FRENCH-MADE AND ECO-FRIENDLY

Preserving the environment matters to us. That is why we are committed to pursuing good environmental practices whether for the materials we use or the partners we work with.

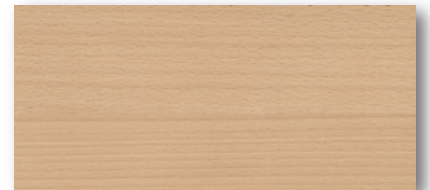

Ensuring flawless service and quality remains our top priority.
Our products are made from quality materials.
